NEAT CLUB ROOMS ATTACHED  
Commercial Row, Reno, Nevada

It isn't much trouble for a really healthy man to be good humored. Jollity and exuberant health are a proverbial combination. The hearty man who is always laughing doesn't have any trouble with his digestion. It has been said that laughing makes people healthy. The truth is that health makes people laugh. It is impossible to estimate the tremendous influence of health upon human character. A man with a headache will not be in a happy, contented frame of mind. A man who suffers from a weak stomach and an impaired digestion will sit and grumble through the best meal ever prepared. A bilious man who is not a bore, is deserving of a place in a museum. A nervous man who is not petulant and fault finding is a curiosity. All these conditions lead to grave diseases, when the victim becomes not only disagreeable, but dependent as well. A wise wife will realize that while the old saying that a "man's heart is in his stomach," is not literally true, it is a fact that his stomach sweetens or soures his character according as it is healthy or unhealthy. Dr. Pierce's Golden Medical Discovery is the best of medicines for the conditions described. It makes the weak stomach strong, the impaired digestion perfect, invigorates the liver, purifies and enriches the blood and tones the nerves. It tears down half-dead, inert tissues and replaces them with the firm muscular tissues of health. It builds new and healthy nerve fibres and brain cells. It dissipates nervousness and melancholy and imparts mental elasticity and courage. It is the best of all known medicines for nervous disorders.

"Through your skillful treatment I am once more a well man," writes J. N. Arnold Esq., of Gandy, Logan Co. Neb. "I suffered for years and could not find relief until I commenced taking your 'Golden Medical Discovery.' I suffered with constipation and torpidity of liver which resulted in irritation of the prostate and inflammation of the bladder. I had only taken one bottle when I found great relief. The medicine has effected a permanent cure."

### Remarkable Tameness of Animals in the Yellowstone Park.

The slaughter of birds has almost entirely removed one of the delightful accompaniments of life in the rural east—the music of the feathered songsters. Apropos of this, it may be said that one of the most pleasant features of the drive through the Yellowstone National park is the apparent intimacy between man and the animal and bird life in the park. Thanks to the wise and stringent regulations, no shooting is allowed within its boundaries.

"The result," says an English tourist, "is positively charming. Hundreds of little chipmunks, with their gaudy striped backs, scampered impudently about or peered at the passing coach from the roadside. The squirrel did not bolt for the nearest tree, but nodded a welcome. All bird life treated us like wise. Even the lordly eagle hovered near, and the wild turkey stalked unconcernedly through the rank grass. We were fortunate enough to see a fine specimen of the wolf tribe. He stood, a beautiful creature, and watched us out of sight, showing only curiosity, not fear. Another time we perceived a doe and fawn grazing by the road. Not until we were within a few feet did they seek the shelter of the woods, yet not to fly. They simply moved aside. Here at least mankind was regarded as a friend—one who could be trusted. The only animal who ran away was a brown bear. He turned tail at the sight of a coaching party, yet it was quite a common thing for bears to approach close to the hotels at evening to feed on the refuse thrown out. It was an after dinner relaxation for the guests to watch them feeding. They munched and disputed the choicest morsels, for the most part indifferent to the company. Only when we became inquisitive and approached too near did they retire, and these animals were perfectly free and unfettered in their movements. It may read like a fairy tale, but it is solid fact."—Troy Times.

### MEN OF GENIUS.

Nature Likes Them Not and Invariably Crushes the Breed.

Through all time men of genius have scoffed at and have ridiculed the attempts of purse proud old "richesos" to create superior orders of manhood. Nor is this a matter for wonder. They were and are ridiculous. Yet these attempts are repeated every hour. Considering them one would suppose that wealth, titles, dignities, are talismans which insure virtue and honor and personal worth and beauty in those to whom they descend. Talismans are ridiculous, and so are titles.

Nobility is of blood and not of garters, royal sponsors and christening robes. Pedigrees, portraits and family history when truthful tell us a great deal about the nobility of a race. Titles, quarterings and patents are worthless, and the production of a great genius is in general as bad a sign as the production of a great prodigal. Races that produce geniuses should be avoided. The best is the second best—the normal.

Genius, as some one (Victor Hugo, I think) has finely said, is a promontory stretching out into the ocean of the infinite. Look for the descendants of Shakespeares, Bacons, Macaulays, Wellingtons, Nelsons, Gibbons, Swifts, Voltaires, Carlyles, Bonapartes, Goldsmiths, Spencers, Miltons, Cromwells, Disraelis—to take a few names at random—and you will find that they are not, for the genius is always a transgressor of the normal—a "sport." He is never symmetrical. Such a one nature likes not, and she makes provision for the extinction of his race.—Hummantarian.

### Cheap Injury.

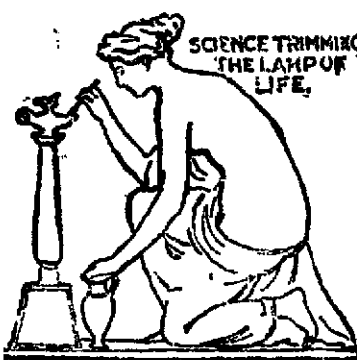

Cesey—Shure, an it's th' unlucky man Oi am!  
Clancy—Unlucky be dom'd! Hov'n't yez kin out av th' wreck wid only a broken arm?

Cesey (sarcastically)—An for which Oi only git folve hundred dollars! Thim fellies thot wor kilt git folve thousand.

## A FLEETING TREASURE.

Washoe County is a great financial center. With its great business and shipping center.

A glance at the auditor and treasurer's report will convince our readers that Washoe county is in better financial condition than ever before. The funds are all full of cash, besides there is considerable to collect on the second installment, which will make it possible to still further reduce the county rate for the ensuing year. In 1894 the county rate was 1.10; in 1895 it was 1.00; in 1896 it was only 88 cents, and it is believed it can be reduced very materially for 1898. This must be encouraging to the taxpayers.

The local taxes within the city of Reno will surely be 20 cents less than in 1898, as the new law fixing the payments in two installments, necessitated an additional 100, on both the school and University bonds for the year 1898. This will not be necessary in 1899. The county has not issued a piece of script since Nov 10 1896.

## An Interesting Collection.

Constable McNelly and Dep. Constable Charles Leeper are the keepers of a gruesome array of instruments which were used by criminals in their unlawful work. A long them are delicate stilettos with pearl mounted handles whose blades are stained with human blood, pistols both old and modern in make, that have been used in desperate attacks at murder, and along shots of all kinds, from the well made policeman's club down to a rude affair made of a round stone to which is attached a strip of cloth for a handle. Many blood-curdling stories of real life might be told about the affairs in which the weapons figured.

"This," said Mr. Leeper, handing the visitor a wicked looking sharp pointed knife, "is an instrument I came near having stuck into me once, it was in the hand of a man frenzied with drink."

A long stiletto like instrument was picked up by the visitor, who was told that it had been carried by a woman for days while she was looking for her victim. Thus he went over many of the weapons in the collection, relating the incidents connected with their capture. Were it not for the efficient corps of officers, perhaps Reno would be troubled with criminals as much as are Californian towns of the same population.

## Mistaken and Non-sensical.

The Elko Independent complains of not receiving the JOURNAL regularly.

Immediately upon reading the complaint, the JOURNAL's mailing clerk was questioned and he assured us that the Independent had been mailed regularly with our other exchanges.

So the fault lies elsewhere than in this office. The editor intimates that the omission was purposely made, and says something about the JOURNAL thinking it had "knocked it out of the Senatorial contest," and some more nonsense of that kind.—The JOURNAL has no such leisure, neither does it resort to the contemptible and cowardly trick of withholding certain numbers from contemporaries because if their containing matter relating to them from which it fears a knockout reply. The Independent is received quite regularly at this office, and we have failed to remember anything relating to it in the JOURNAL that has not been noticed in the Elko paper. Nothing ever appears in the JOURNAL which it would withhold from any person or paper on the face of the earth, and although it has been much the special target of all the stewart organs, it believes itself able, and knows that it is willing to meet the attacks of the entire horde—not even excepting the Elko Independent.

Hartley-Bonfield.

Mrs. Alice M. Hartley, formerly a resident of Reno, and the suburbs of Carson City, and Wm. S. Bonfield were married in San Francisco on Wednesday. The trip thence do not state where the happy couple will spend their honeymoon nor where they intend to make their future residence, which will probably be, however, at Winnemucca. The marriage is a matter which concerns the contracting parties alone, and if they are satisfied no one else that we know of has any cause for complaint, although the San Francisco papers are making a considerable sensation about it. The JOURNAL will content itself with quoting the stereotyped words of the old standard comedies—"Bless you, my children, bless you."

The Southern Pacific company notified coal dealers that after the 1st of January, 1899, the minimum weight of a carload of coal will be increased from 20,000 to 22,000 pounds.

## BREVITIES.

Times are very dull in Cherry Creek at present, but indications are favorable for it to be one of the best camps in Nevada in a few months.

Judge Linn yesterday married his first couple since his return from San Francisco. No doubt the Judge felt that he was in his element once more as he tied the nuptial knot.

Mrs. Bradley will be at the head of the bandery in the State Printing office.

Miss Gertrude Barkley of Carson, and Misses Mary Hart and Connors of Virginia, have also secured positions there.—News.

The brakemen on No. 2 last night had a hard fight with half a dozen hobos, who were determined to ride on that train. Though it was stopped four times the hobos evidently came out winner for they are not to be seen in Elko this morning.—Argonaut.

That Indians still adhere to their early methods of rapid communication at great distances, was illustrated in Carson when signal fires built on the mountain peaks attracted a large delegation from all parts of the State to arrange for the distribution of arid lands by Government Agent Hill.—Chronicle.

## Not Up To Date.

The *Enterprise* makes a terrible face about a little old \$2,200 check said to have been issued ten or a dozen years ago to a citizen of Reno by the grand old man. Why don't the *Enterprise* hunt up something of a little later date and locate the beneficiary a little nearer home than our riverside city? Besides that alleged transaction has expired by the statutes of limitation and years ago passed into impenetrable mists of antiquity. Keep up to date, neighbor, and discuss modern affairs instead of boring your readers with proxy relation of traditional and historical events.

## Thawing Giant Powder.

There are numerous processes published for the thawing of giant powder.

A mining partner of the JOURNAL writer had one which he kept secret until his death, so it is lost to the world. He always promised to give the formula to us, and would doubtless have done so, but for his sudden disappearance with his cable one frosty morning, nothing having been seen or heard of either except a remnant of stove pipe on a mountain ten miles from the site of his former domicile.

## A Christmas Baby.

While nearly every person whom one meets these days goes into detail over the intrinsic value or usefulness of the presents one has received during the holidays, they have little to say after running against John Dixon, who patiently listens to their little story, at the conclusion of which he simply says: "I beat you. Santa Claus left a little baby girl at our house Christmas morning." The statement always proves convincing, and John smiles with a satisfied air.

## Washoe Typographical Union.

At a meeting of Washoe Typographical Union held here on Sunday, Lee Winkle of Winnemucca, S. Olcott of Carson and J. C. Shaver of Reno were admitted to membership, and R. R. Crawford of Reno reinstated. All of the above named types were on the Comstock that day with the addition of W. A. Moore of Reno.—Report.

## Steam Traction Engine.

O. L. Taylor, superintendent of the Rose Valley Box Works, appeared before the board and asked for a permit to run a steam traction engine over the Winnemucca bridge. The request was granted. The engine will be used in hauling borax from the works to Winnemucca.

## School Funds.

T. V. Julien, County School Superintendent, has apportioned \$7,749 school money among the different school districts in the county. The rate for each child of school age being \$2.97086 and the number of such children in the county being 1899.

Elko, an old-time engineer and the Central Pacific, was seriously injured at Elko this morning by being struck in the head by the sharp point of a pick. Kane was assisting his fireman in cracking coal when the fireman accidentally struck him in the head with the pick, the point penetrating the skull above the right eye. The injured man was brought here and attended by Dr. Hood. He was taken to the Elko hospital on No. 1.—Elko Independent.

One of the latest selections on the gramophone goes with every smoke at "The Model." Try one of his latest cigars, they can't be beat.

## Notice to Applicants.
